Evidence-based Research

Evidence-based research informs all of the NPQ programmes:

“School leaders need to stop creating schools that attempt to lock in prior achievement and experiences (such as by using tracking), and instead be evidence-informed about the talents and growth of all students by welcoming diversity and being accountable for all (regardless of the teachers’ and schools’ expectations).”

**John A.C. Hattie, Visible Learning for Teachers:
Maximizing Impact on Learning**

NPQML

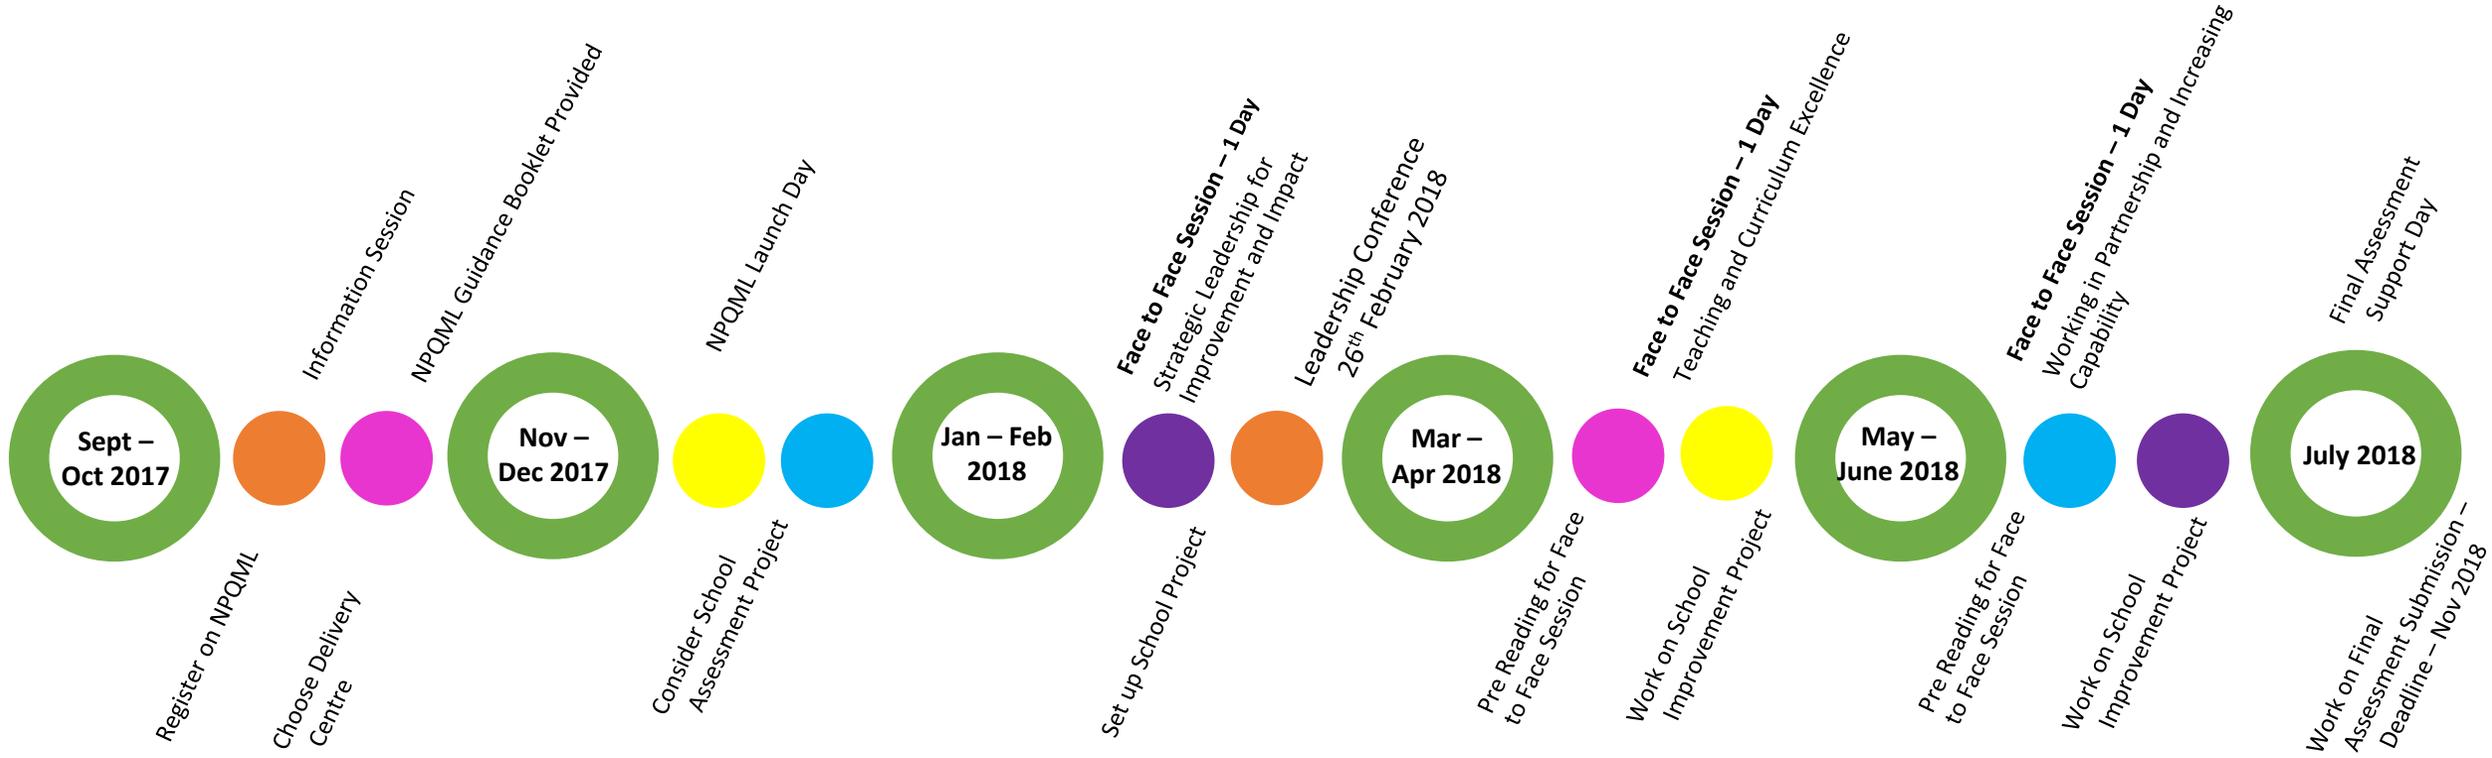

National College for
Teaching & Leadership

Designed in collaboration with some of the country's leading academics and school leaders, the NPQML is a **nationally recognised** qualification which will develop talented leaders from all backgrounds to deliver educational excellence in a self-improving system, and high-quality outcomes for pupils and students. NPQML:

- takes account of your professional development needs, prior learning and achievements;
- improves and develops further your strategic leadership expertise;
- develops key leadership and management skills;
- provides opportunities to network with those from other educational contexts
- gives you the confidence and competence to operate effectively at middle leadership level, so you are able to make a positive impact on your teams, and on the lives of children, young people and their families.
